As stable as a ship in the deep ocean

WIND PAL FS' base is in the type of arc, this makes its structure like a ship in the deep ocean. Big metal mesh as the deck covers the ship, offering a flat and tidy working surface. WIND PAL FS will make you feel on a ship while surfing in notebook!

Material

WIND PAL FS has a big metal mesh, environment friendly ABS+PMMA plastic base, and soft silica gel pad. All these materials display their high quality from deep inside, and imply your style of being fashionable and a decent business man.

Two 140mm fans

As one of the basic characters of WIND PAL series, WIND PAL FS has functional components undoubtedly. Two 140mm fans entitle WIND PAL FS strong power and staring appearance.

Two using angles

WIND FAL FS is considerate because it has two different using angles, you may select your own one according to your feeling of ergonomics.

Flatness treatment

Complete flatness treatment makes two different materials compatible to each other very well, and it assures WIND PAL FS' appearance as well.

Base in type of arc

The base in type of arc helps WIND PAL FS get better space for air flow while it is so slim, and give it an attractive appearance meanwhile.

Smooth lines

WIND PAL FS' base is in the type of arc, make its structure like a ship. Big metal mesh as the deck covers the ship, offering a flat and tidy working surface. WIND PAL FS will make you feel on a ship while surfing in notebook.

Anti-slip

WIND PAL FS has small folded feet at the bottom of the panel, and are stuck with soft silica gel pad, it stops the notebook from slipping off and protect the edges of the notebook from scratches.
