

MY CLOUD[™] HOME

PERSONAL CLOUD STORAGE

**Save everything at home.
Access it anywhere.**

- One central place to store and organize everything
- Quick and simple setup
- Mobile, on-the-go access
- Auto backup for photos and videos on your phone
- USB port to import photos and videos from external storage devices
- File search to find content easily

My Cloud Home is an easy-to-use personal storage device that plugs directly into your Wi-Fi[™] router at home so you can save all your digital content in one central place. Automatically back up the photos and videos on your phone, and wirelessly back up and sync all your PC and Mac computers and cloud accounts.¹

MY CLOUD HOME

PERSONAL CLOUD STORAGE

Product Features

One central place to store and organize everything

With enough space to keep all your photos, videos and files in one place at home, organize it all your way and access from anywhere with an internet connection.

Quick and simple setup

Just plug your My Cloud Home device into your Wi-Fi router. Use your mobile device to visit MyCloud.com/hello to set up your account and start backing up, accessing and sharing. No computer necessary and no monthly fee required!

Mobile, on-the-go access

Use the My Cloud Home mobile app, desktop app or MyCloud.com to upload, access and share your favorite memories and stream videos saved on your My Cloud Home device.

Auto backup for photos and videos on your phone

Automatically back up photos and videos on your phone to the My Cloud Home device so you can make room for more.

USB port to import photos and videos from external devices

Quickly import photos and videos from other devices scattered around your house, like USB flash drives and external hard drives, using the USB port on the back of the My Cloud Home device.

File search to find content easily

Quickly find photos, videos, movies and docs using easy-to-use search with the My Cloud Home mobile or desktop app, or on MyCloud.com.

Individual, private spaces for each user

Invite family and friends to create individual accounts. Each invited person can set up their own private space that only they have access to on the device. They can manage, access and share their content as they want.

Third-party applications to customize your way

Tailor your My Cloud Home device to fit your personal needs and preferences using downloadable services, including Plex Media Server™, Dropbox, Google Drive™ and more.¹

Cloud account download to keep everything in one place

Photos, videos and files from your cloud accounts can be automatically downloaded to your My Cloud Home device, including Dropbox, Box, Google Drive™, Facebook and many more.¹

Auto backup for all PCs and Mac computers at home

The My Cloud Home device has enormous capacity and plugs into your network to wirelessly back up every computer at home to one central place. Works seamlessly with Windows Backup and Time Machine software.

Smooth video playback anywhere

Stream your personal videos anywhere, on any device, using the My Cloud Home mobile and desktop app or MyCloud.com.

Quick and easy sharing

With just a few clicks, share photos, videos, documents or entire folders with friends and family, so nobody misses a thing.

¹ App or Cloud account registration may be required. Apps and Cloud services may be changed, terminated or interrupted at any time and may vary by country.
