Logitech ConferenceCam Connect

HD 1080p Video and 360° Sound Meet Portability and Affordability

**All-in-One Video Collaboration for Small Groups**
Optimized for workgroups of 1-6 people, the affordable ConferenceCam Connect videoconference solution offers multi-device connectivity and sets up in a snap to elevate small group collaboration to the next level.

ConferenceCam Connect offers a generous 90-degree field of view with digital pan, mechanical tilt, 4x digital full HD zoom, and a glass lens with autofocus. The mobile speakerphone features Bluetooth® wireless technology, Near Field Communication (NFC), and USB. With true 360-degree sound, users can hear and be heard within a 12-foot diameter range while acoustic echo and noise-cancelling technology delivers lifelike conversations.

For ultimate flexibility in the Anywhere Workplace, ConferenceCam Connect runs on battery or AC power, provides multi-device connectivity and features certifications from Microsoft®, Cisco®, and Skype™ to ensure broad-based UC compatibility.

Multi-Device Connectivity

Smartphones

90-Degree field of view

with digital pan/tilt and mechanical tilt control.

360-Degree audio with 12-foot diameter range

The acoustics are tuned to provide a quality experience so that users can hear and be heard within a 12-foot diameter range.

Omni-directional full duplex mics

Makes it seem like conversations are happening in the same room.

HDMI connector

Connect the ConferenceCam to a HD TV screen to wirelessly stream content. The ConferenceCam connects automatically with no need to select TV inputs.

Logitech ConferenceCam Connect

Portable All-in-One Design
Sleek all-in-one design is easy to transport, providing extreme flexibility in the Anywhere Workplace.

Perfect for Small Workgroups
Optimized for teams of 1-6, watch productivity soar with HD 1080p video, 360-degree sound, and wireless screen-mirror projection in virtually any workspace.

See and Be Seen
Automatically focus on people and objects for razor-sharp resolution wherever the lens is pointed.

Multi-Device Connectivity
Simply connect the PC or Mac to conduct life-like meetings within own familiar computing environment or enjoy the convenience of wireless connectivity for screen mirroring and audio pairing from a compatible mobile device[2].

Interact with Everyone at the Table
The 90-degree field of view with digital pan, tilt, and 4X digital zoom in full HD is ideal for small group meetings.

Hear and Be Heard
The acoustics are tuned to provide a quality experience so that users can hear and be heard within a 12-foot diameter range.

Conversations Sound Life-Like and Natural
Acoustic echo and noise-cancelling technology makes it seem like conversations are happening in the same room.

USB Plug-and-Play Connectivity
With no special software, training, or maintenance required, launching an enterprise-quality videoconference has never been easier.

Rechargeable Battery
Leave the power cord behind: run video calls/screen mirroring for up to 3 hours or use the speakerphone for up to 15 hours with a fully charged battery.

Wireless Screen Mirroring[1]
Connect wirelessly to screen mirror presentations, spreadsheets, videos or Internet content from a mobile device[1] to a TV screen.

H.264 UVC 1.5 with Scalable Video Coding (SVC)
Frees up laptop bandwidth by putting video processing within the camera, resulting in a smoother video stream in applications like Microsoft® Lync™ 2013.

Professional-grade Certifications
Optimized for Microsoft® Lync™ 2013, Cisco Jabber™ and WebEx® compatible[3], and Skype™ certified ensures an integrated experience with most UC platforms.

Near Field Communication (NFC)
Closely wave a mobile device equipped with NFC technology[4] over the base console to instantly pair and enjoy professional audio speakerphone quality.

Bluetooth® Wireless Connectivity
Quickly and easily create a connection between any Bluetooth® device and the integrated speakerphone.

Far-end Camera Control
Operate camera pan, tilt and zoom functions of another Logitech ConferenceCam or Webcam C930e in the other location[5].

Dockable Remote Control
Easily operate camera pan/tilt/zoom and audio functions (call answer/end[6], volume, mute) during meetings. The remote covers the lens when the camera is not in use for added privacy.

Works with most UC and videoconference applications
Users are free to use the desktop video conferencing program of their choice.

Kensington Lock-Enabled
The Kensington Security Slot offers a simple, built in security solution to help protect against theft.

Logitech ConferenceCam Connect

TECH SPECS

CAMERA

- Full HD 1080p video calling (up to 1920 x 1080 pixels) at 30 frames-per-second[7]
- H.264 UVC 1.5 with Scalable Video Coding (SVC)
- Supports H.264 SVC 1080p for Microsoft® Lync™ 2013, along with optimizations for best call performance in single or multiparty HD video
- 90-degree field of view with autofocus
- 4X digital zoom in full HD
- Rightlight™ 2 Technology for clear image in various lighting environments (even low light)
- Digital Pan, Tilt and Zoom from remote control or optional downloadable app
- Mechanical tilt
- Camera LED for active streaming indication

SPEAKERPHONE

- Integrated full duplex speakerphone with echo and noise cancellation
- 360-degree wideband audio with 12-foot diameter range
- Bluetooth® and NFC enabled
- LEDs for speakerphone streaming, mute, hold, and Bluetooth® pairing
- Controls for call answer/end, volume, mute

Microphones (Tx)

- Two omni-directional microphones supporting 12-ft diameter range
