

Creative Live! Cam Sync 1080p

Full HD Wide-angle Webcam with Dual Built-in Mic

Enhance your online meetings with the Creative Live! Cam Sync 1080p, which delivers full HD videos at 30 FPS, so you can present yourself professionally with realistic clarity in any environment., whether at home or in your office. UVC compliant and compatible with most popular video conferencing applications, the Live! Cam Sync 1080p is easy to use and quick to set up, so you can be ever ready for your online meetings and video calls, even the last-minute ones!

FULL HD WIDE-ANGLE VIDEO

Look professional when attending online meetings with Creative Live! Cam Sync 1080p, which accurately presents you in full HD video that is smooth, sharp, and vibrant. The wide 77° field of view also allows you to capture more of everything with minimal optical distortion, so you can comfortably video call even as a group

UVC COMPLIANT PLUG AND PLAY

Designed to be simple-to-use and convenient, the Live! Cam Sync 1080p works immediately when you plug it into an available USB-A port on your PC or Mac! This is because the webcam is UVC compliant, which means that it requires no additional driver installation or any of that hassle

PRIVACY-PROTECTION LENS CAP

Be in control of what you want to show and what you don't. The integrated lens cover guards you from unwanted access to your webcam via spyware or other hacking tools, so you can feel safe about leaving your camera connected. The lens cover also serves as protection against dust accumulation when not in use, keeping your lens clean for crisp video recording

DUAL BUILT-IN MICROPHONES

Speak confidently at a comfortable volume without having to strain your voice. The dual built-in microphones on the Live! Cam Sync 1080p allows for better audio pickup, and wider reception area so you don't have to fight for the mic with your friends or family members during a group call

SHOOT FROM ANY ANGLE

Find your best angle easily with Live! Cam Sync 1080p, which comes with 360° horizontal rotation and 30° vertical tilt capable of handling any demanding shooting angle. The webcam also comes with a universal mounting clip that is compatible with laptops and desktop monitors. You can attach it to a universal tripod for more versatile placements too
