

DELL ULTRASHARP 34 CURVED USB-C HUB MONITOR | U3421WE

Productivity never looked so good

IMMERSIVE PRODUCTIVITY

Immerse yourself in stunning color and clarity on this ultrawide 34" WQHD curved monitor with integrated speakers.

MULTITASK EFFICIENTLY

Connect two PCs to the monitor, switch between or work on both sources. Features include KVM (with Auto KVM), PIP, PBP and Easy Arrange help boost productivity.

PRODUCTIVITY HUB

Connect to your Ethernet while charging your laptop and peripherals with RJ45, USB-C® and a host of other ports.

TRUSTED RELIABILITY

World's number 1 monitor company.*
Backed by renowned Dell reliability.

Productivity never looked so good

IMMERSIVE PRODUCTIVITY

See more, achieve more: With more onscreen space on this 34" ultrawide WQHD (3440 x 1440) curved screen, you can multitask effectively — without the need for a dual monitor setup.

All-encompassing experience: The 1900R screen curvature creates a wider field of view, minimizes reflection and offers near uniform visual focus, for a more comfortable view. Plus, integrated dual 5W speakers deliver great sound for an immersive visual and auditory experience.

Unparalleled focus: Get incredible depth, breadth and a wrap-around view that helps you focus on your work. With In-Plane Switching (IPS) technology, you can expect consistent color and picture quality across a wide viewing angle.

ACCURATE COLOR

Consistent vibrant colors: See true-to-life color with a color depth of 1.07 billion colors and wide color coverage including 99% sRGB, 99% Rec 709 and 95% DCI-P3. With 95% coverage of the DCI-P3 color space (which offers nearly 25% more coverage than sRGB), you will see your charts, graphs, images and video content in an even wider range of colors.

Accurate color, out of the box: Each monitor is factory calibrated at 99% sRGB to an accuracy of Delta-E less than 2 for accurate colors right from the start.

PRODUCTIVITY HUB

Connect to productivity: With connectivity options like RJ45 and USB-C, your monitor serves as a productivity hub that delivers stable Ethernet¹ and up to 90W of power to your laptop — all in a clutter-free setup.

Easy to manage: MAC Address pass-through², PXE Boot, and Wake-on-LAN are conveniently built in.

Multitask efficiently: Connect two PC sources to the monitor. Our intelligent Auto KVM feature detects the latest connected PC and seamlessly switches controls over. View content from both PC sources with PBP (Picture-by-Picture) and PIP (Picture-in-Picture), and use built-in KVM (Keyboard, Video and Mouse) to control both PCs with a single keyboard and mouse.

Extensive connectivity: Easily connect to a variety of devices with comprehensive connectivity including DP1.4, HDMI 2.0, USB-C and USB 5 Gbps. Quick access front ports allow convenient connection to peripherals and charging of mobile phones (up to 15W via USB-C).

STYLISH, NEW DESIGN

Redesigned with purpose: Crafted with a premium platinum silver finish, this monitor features a 3-sided narrow bezel, and an elegant cable management system that hides cords within the monitor riser. Navigate the menu and adjust screen settings with the easy-to-use joystick control.

Comfort is key: Tilt, swivel, and adjust the height of your monitor to a maximum of 150 mm because you should be comfortable while you work.

Easy on the eyes: Optimize eye comfort with a flicker-free screen and ComfortView, a feature that reduces harmful blue light emissions. TÜV Rheinland certified – ID 1111227067.³

DELL DISPLAY MANAGER

Productive at every level: Dell Display Manager's (DDM)⁴ Easy Arrange feature lets you quickly tile and view your applications side by side across one or more connected screens for multitasking efficiency.

More ways to manage: Asset management reports allow IT managers to quickly capture and track monitor information as well as configure multiple monitors at once through a single setup.

THANK YOU FOR MAKING DELL MONITORS #1 WORLDWIDE*

Peace of mind: Dell Premium Panel Exchange allows a free monitor replacement during the Limited Hardware Warranty⁵ period even if only one bright pixel is found.

Minimize downtime: Your monitor comes with a 3-year Advanced Exchange Service⁶ so that if a replacement becomes necessary, it will be shipped to you the next business day during your 3-year Limited Hardware Warranty.

Get a higher level of support: Upgrade to 24 X 7, in-region technical phone support from qualified engineers with Dell ProSupport option.⁷
